

Hi! Thank you for visiting thehomeschooldaily.com ! So glad you were able to find a school tool you can use. Please feel free to use this activity for your own personal use or if you are the main teacher in a coop setting. I provide this free resource to encourage others to homeschool their own.

If you would like to share the file with others, I ask that you share by sending them a link to my website or to the page that hosts the file. Please do not send them a link directly to just the PDF file (the file you are at now).

You may not sell, copy, or alter my files as your own. You may not host my files on your own website without linking them to thehomeschooldaily.com or giving proper attribution to thehomeschooldaily.com .

May you be blessed on your homeschooling journey.

♥ Marie

Day 1 of Creation Activity Sheet

You can choose to use these activity sheets two ways. First, you could just use the 1st sheet as a coloring sheet and keep it simple. The other option is to print both sheets out. Encourage your student to color the 2nd sheet with the Day side yellow and the Night side black to represent the separation of light and darkness. Next, your student will color the Earth and cut it out. Have your student paste the Earth in the center of the 2nd sheet. You can choose to cut out the verse to glue it in the middle of the Earth or even on the back. Enjoy!

In the beginning God created the heaven and the earth. And the earth was without form, and void; and darkness was upon the face of the deep. And the Spirit of God moved upon the face of the waters. And God said, Let there be light: and there was light. And God saw the light, that it was good: and God divided the light from the darkness. And God called the light Day, and the darkness he called Night. And the evening and the morning were the first day. Genesis 1: 1-5
