

Hi! Thank you for visiting thehomeschooldaily.com ! So glad you were able to find a school tool you can use. Please feel free to use this activity for your own personal use or if you are the main teacher in a coop setting. I provide this free resource to encourage others to homeschool their own.

If you would like to share the file with others, I ask that you share by sending them a link to my website or to the page that hosts the file. Please do not send them a link directly to just the PDF file (the file you are at now).

You may not sell, copy, or alter my files as your own. You may not host my files on your own website without linking them to thehomeschooldaily.com or giving proper attribution to thehomeschooldaily.com .

May you be blessed on your homeschooling journey.

♥ Marie

ABC Craft Sheets

The ABC Craft Sheets are super simple and fun if you just use your imagination. We have printed off the letters before and used them to make letter people. We add google eyes and draw on arms and legs. We have also printed them off on cardstock and glued items to the letters that are letter appropriate. For example, apple jacks to a or buttons to b. I have also included clipart that coincides with the ABC book if you would rather cut out the images and paste them onto the letter sheet. If you do it this way, you can count the items with your child, reinforce vocabulary and letter sound, and your child can also practice their penmanship to trace the letter. Happy learning! 😊
