

Hi! Thank you for visiting thehomeschooldaily.com ! So glad you were able to find a school tool you can use. Please feel free to use this activity for your own personal use or if you are the main teacher in a coop setting. I provide this free resource to encourage others to homeschool their own.

If you would like to share the file with others, I ask that you share by sending them a link to my website or to the page that hosts the file. Please do not send them a link directly to just the PDF file (the file you are at now).

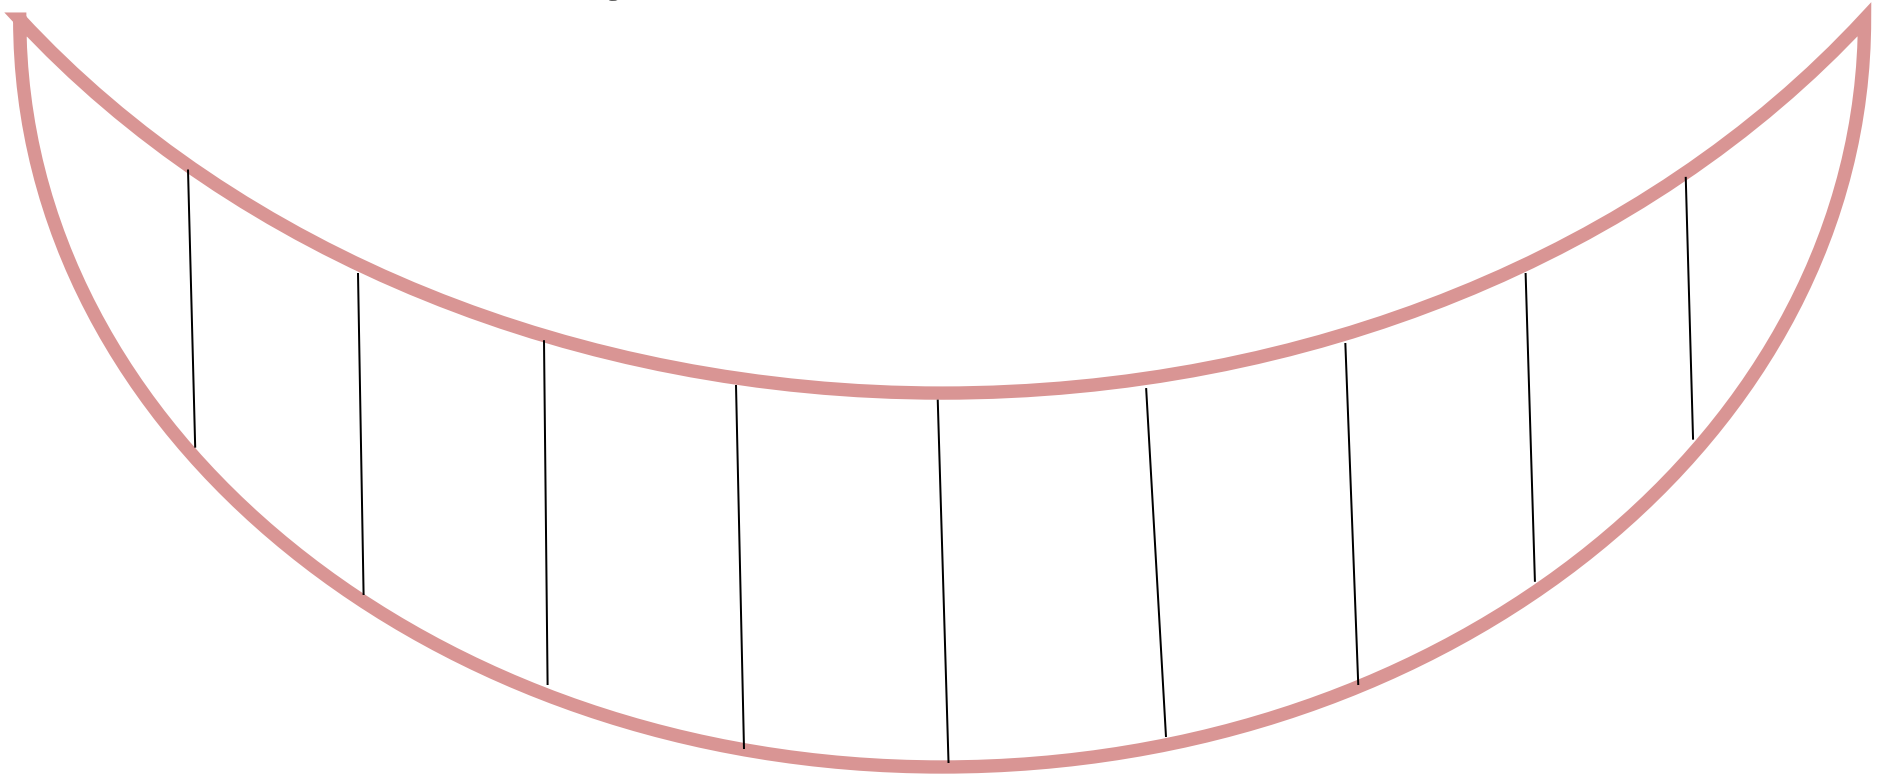

You may not sell, copy, or alter my files as your own. You may not host my files on your own website without linking them to thehomeschooldaily.com or giving proper attribution to thehomeschooldaily.com .

May you be blessed on your homeschooling journey. Happy learning!

Counting Teeth Activity Sheet

This is an activity that my children and I did when they were preschoolers. While focusing on a hygiene unit we spent a few days talking about taking care of our teeth. So, it only seemed appropriate to count teeth on a smile. Have your child cut the numbers out and glue them on the teeth. Encourage your child to glue them in order from left to right... 1, 2, 3, ... In the end, have your child point to the numbers and count the teeth. Better yet, count them together! Happy learning!

How many teeth are in this smile?

1	2	3	4	5	6	7	8	9	10
