

Hi! Thank you for visiting thehomeschooldaily.com ! So glad you were able to find a school tool you can use. Please feel free to use this activity for your own personal use or if you are the main teacher in a coop setting. I provide this free resource to encourage others to homeschool their own.

If you would like to share the file with others, I ask that you share by sending them a link to my website or to the page that hosts the file. Please do not send them a link directly to just the PDF file (the file you are at now).

You may not sell, copy, or alter my files as your own. You may not host my files on your own website without linking them to thehomeschooldaily.com or giving proper attribution to thehomeschooldaily.com .

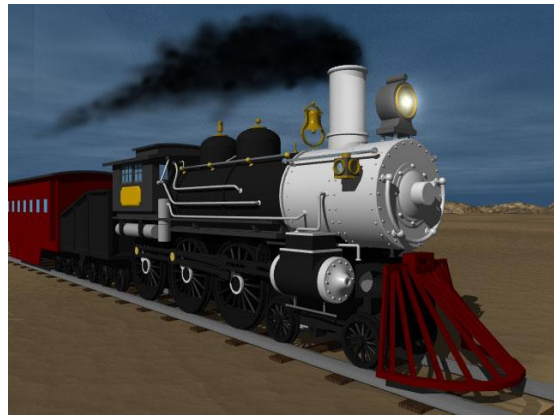

May you be blessed on your homeschooling journey. Happy learning!

♥ Marie

Transportation Cut & Paste Matching Book

The Transportation Cut & Paste Matching Book is easily accessible. After printing out the PDF, cut pages 4-8 along the dotted lines. Staple the book in the top left-hand corner making sure to put the title page on the front cover. The other pages can go in whatever order you place them in. If your child can cut the transportation pictures out, then let them. This is a great fine motor skill for them to perfect. Once the transportation pictures are cut out, lay the pictures out on the table so that they can be seen. You can choose to do this a few different ways. We open the book and start on the first page that reads, "car." If I am working with an early preschooler, I may just say the word and have them pick the picture out and then glue it onto the page. If I am working with an older preschooler or kindergarten student, I would make the beginning sound of the word. So, for the word, "car," I would say the "c" sound. Then I would ask the student if there is picture that has that same beginning sound. Happy learning!

Transportation Vehicles

Car

Wagon
