

Hi! Thank you for visiting thehomeschooldaily.com ! So glad you were able to find a school tool you can use. Please feel free to use this activity for your own personal use or if you are the main teacher in a coop setting. I provide this free resource to encourage others to homeschool their own.

If you would like to share the file with others, I ask that you share by sending them a link to my website or to the page that hosts the file. Please do not send them a link directly to just the PDF file (the file you are at now).

You may not sell, copy, or alter my files as your own. You may not host my files on your own website without linking them to thehomeschooldaily.com or giving proper attribution to thehomeschooldaily.com .

May you be blessed on your homeschooling journey. Happy learning!

♥ Marie

Types of Sounds Brainstorm

This is a simple graphic organizer that allows older elementary or middle school students to brainstorm their own thoughts about what is quiet or loud. This age of student is more than capable of supplying their own answers and has no need for the cut & paste activity sheet. The student can write their answers or even draw them. I usually require a combination of both. You may want to give them an example of each if they are unsure of how to complete the organizer. An example for loud could be a fire engine. An example for quiet could be a baby sleeping. Happy learning!

Write words and or draw pictures to represent both quiet and loud sounds.
