

Hi! Thank you for visiting thehomeschooldaily.com ! So glad you were able to find a school tool you can use. Please feel free to use this activity for your own personal use or if you are the main teacher in a coop setting. I provide this free resource to encourage others to homeschool their own.

If you would like to share the file with others, I ask that you share by sending them a link to my website or to the page that hosts the file. Please do not send them a link directly to just the PDF file (the file you are at now).

You may not sell, copy, or alter my files as your own. You may not host my files on your own website without linking them to thehomeschooldaily.com or giving proper attribution to thehomeschooldaily.com .

May you be blessed on your homeschooling journey.

♥ Marie

Magnet Mania

This a simple graphic organizer that can be used before you explore magnets. I would recommend this graphic organizer for older elementary (2nd and up) or middle school. It encourages the student to tell what they know about magnets before exploring them. Students can bring knowledge to the table that is based on incorrect assumptions. If we do not address the preconceived misconceptions before a subject is taught, the student is likely to mesh his assumptions with the facts. It is also helpful to discover where it is that your student lies in terms of schema- meaning their vocabulary knowledge of the subject before you begin. You can use this as a group activity or as an individual one. Happy learning!
