Learn all
about the 4
most
common
United States
coins!

Coins are a form of currency.
Currency is money. Money can be
used to buy things.

These are the four most common coins used in the United States.

Every coin has
the words, "In
God We Trust"
engraved on
them.

Also engraved on each U.S. coin is the word, "LIBERTY." The word liberty refers to the freedom we have in America.

This coin is called a penny.

The face on the penny is Abraham Lincoln. He was our 16th president.

A penny is worth \$.01 or 1 cent.

=

100 pennies equal a dollar.

This coin is called a nickel.

The face on the nickel is Thomas Jefferson. He was our 3rd president.

A nickel is worth \$.05 or 5 cents.

=

20 nickels equal a dollar.

This coin is called a dime.

The face on the dime is Franklin D. Roosevelt. He was our 32nd president.

The dime is worth \$.10 or 10 cents.

=

10 dimes equal a dollar.

This coin is called a quarter.

The face on the quarter is George Washington. He was our 1st president.

The quarter is worth \$.25 or
25 cents.

=

4 quarters equal a dollar.

Coins can be saved in your piggy bank. If you save enough coins, you will have a lot of money.

You can buy all sorts of things with money. You can buy a car, groceries, and even that toy you want!

Sometimes we use money to help others.

People can give both their time and money to those that need it.
