

Hi! Thank you for visiting [thehomeschooldaily.com](http://thehomeschooldaily.com) ! So glad you were able to find a school tool you can use. Please feel free to use this activity for your own personal use or if you are the main teacher in a coop setting. I provide this free resource to encourage others to homeschool their own.

If you would like to share the file with others, I ask that you share by sending them a link to my website or to the page that hosts the file. Please do not send them a link directly to just the PDF file (the file you are at now).

You may not sell, copy, or alter my files as your own. You may not host my files on your own website without linking them to [thehomeschooldaily.com](http://thehomeschooldaily.com) or giving proper attribution to [thehomeschooldaily.com](http://thehomeschooldaily.com) .

May you be blessed on your homeschooling journey.

♥ *Marie*

#### **4 Squares Graphic Organizer: 4 Types of Germs**

This graphic organizer is meant to be used with the link provided by Science Links ( <http://sciencenetlinks.com/student-teacher-sheets/whats-germ/> ). The article focuses on the four main types of germs. Encourage your student to read the article and then using the graphic organizer describe what each type of germ is and how it is different from the other forms. We often have this idea that all germs are bad for us, but that is not the case. Learn about how some germs are good for us. This is a great activity to promote reading comprehension.

Bacteria

Virus

**4 Types of  
Germs**

Protozoa

Fungi
