

Hi! Thank you for visiting thehomeschooldaily.com ! So glad you were able to find a school tool you can use. Please feel free to use this activity for your own personal use or if you are the main teacher in a coop setting. I provide this free resource to encourage others to homeschool their own.

If you would like to share the file with others, I ask that you share by sending them a link to my website or to the page that hosts the file. Please do not send them a link directly to just the PDF file (the file you are at now).

You may not sell, copy, or alter my files as your own. You may not host my files on your own website without linking them to thehomeschooldaily.com or giving proper attribution to thehomeschooldaily.com .

May you be blessed on your homeschooling journey.

♥ *Marie*

Bird's Feet & Function Cards

This set of common Bird's Feet & Function Cards is an easy tool to use to show your kids how the structure of bird's feet helps to determine their diet and habitat. Use these cards to talk about possible habitats for each of these birds based on their feet's function. Great time to encourage critical thinking and open discussion. Ask lots of questions, "Where do you think this bird lives?" or "Why do you think this bird doesn't live in the water?" Happy learning!

WARBLER

Feet have 3 toes in the front and 1 in the back for PERCHING on branches
