

Hi! Thank you for visiting thehomeschooldaily.com ! So glad you were able to find a school tool you can use. Please feel free to use this activity for your own personal use or if you are the main teacher in a coop setting. I provide this free resource to encourage others to homeschool their own.

If you would like to share the file with others, I ask that you share by sending them a link to my website or to the page that hosts the file. Please do not send them a link directly to just the PDF file (the file you are at now).

You may not sell, copy, or alter my files as your own. You may not host my files on your own website without linking them to thehomeschooldaily.com or giving proper attribution to thehomeschooldaily.com .

May you be blessed on your homeschooling journey.

♥ Marie

Investigation Station: Magnets

Investigation Station: Magnetic or Not? is a fun introductory activity to the study of magnets. Students can use the worksheet individually or as a group to predict if they think the magnet will attract the item. After predictions are made, the student(s) are given a magnet to test their predictions. Depending on how you want to present the lab to your student, there are 4 different versions to choose from. Pick the one that works the best for you!

Investigation Station: Magnets

Observe the items and make predictions about whether a magnet will attract them.
Then, use a magnet to test your predictions. Record your findings.
