

Hi! Thank you for visiting thehomeschooldaily.com ! So glad you were able to find a school tool you can use. Please feel free to use this activity for your own personal use or if you are the main teacher in a coop setting. I provide this free resource to encourage others to homeschool their own.

If you would like to share the file with others, I ask that you share by sending them a link to my website or to the page that hosts the file. Please do not send them a link directly to just the PDF file (the file you are at now).

You may not sell, copy, or alter my files as your own. You may not host my files on your own website without linking them to thehomeschooldaily.com or giving proper attribution to thehomeschooldaily.com .

May you be blessed on your homeschooling journey.

♥ Marie

Planet Research Sheets

When asking a student to write a research paper, it is always a good idea to make use of a graphic organizer. This tool will assist your student in organizing their information. For example, completing the Planet Research Sheets forces a student to read, research, and summarize facts. One step that many students want to skip in the writing process is brainstorming. This graphic organizer encourages pupils to write their findings in an organized fashion, making it easier for them to pull from when it comes time to write their paper. Blessings, Marie
