

Hi! Thank you for visiting [thehomeschooldaily.com](http://thehomeschooldaily.com) ! So glad you were able to find a school tool you can use. Please feel free to use this activity for your own personal use or if you are the main teacher in a coop setting. I provide this free resource to encourage others to homeschool their own.

If you would like to share the file with others, I ask that you share by sending them a link to my website or to the page that hosts the file. Please do not send them a link directly to just the PDF file (the file you are at now).

You may not sell, copy, or alter my files as your own. You may not host my files on your own website without linking them to [thehomeschooldaily.com](http://thehomeschooldaily.com) or giving proper attribution to [thehomeschooldaily.com](http://thehomeschooldaily.com) .

May you be blessed on your homeschooling journey.

♥ Marie

## Solar System Mobile

The Solar System Mobile was created to accommodate a large multi-age co-op class. While viewing the Solar System slideshow featured in our Solar System Unit, our science co-op colored, cut, glued, and constructed a paper mobile. Though this mobile is not a typical mobile with moving pieces, it does feature multiple hanging planets and two sides. The purpose of this mobile is to put the planets in order from closest to farthest away from the Sun. Since we discussed each planet as we attached them to our mobile, this activity was one that kept hands busy so minds could focus on the topic instead of elsewhere. Besides some basic craft supplies, your student can easily assemble the Solar System Mobile. Happy homeschooling!
