

Hi! Thank you for visiting thehomeschooldaily.com ! So glad you were able to find a school tool you can use. Please feel free to use this activity for your own personal use or if you are the main teacher in a coop setting. I provide this free resource to encourage others to homeschool their own.

If you would like to share the file with others, I ask that you share by sending them a link to my website or to the page that hosts the file. Please do not send them a link directly to just the PDF file (the file you are at now).

You may not sell, copy, or alter my files as your own. You may not host my files on your own website without linking them to thehomeschooldaily.com or giving proper attribution to thehomeschooldaily.com .

May you be blessed on your homeschooling journey.

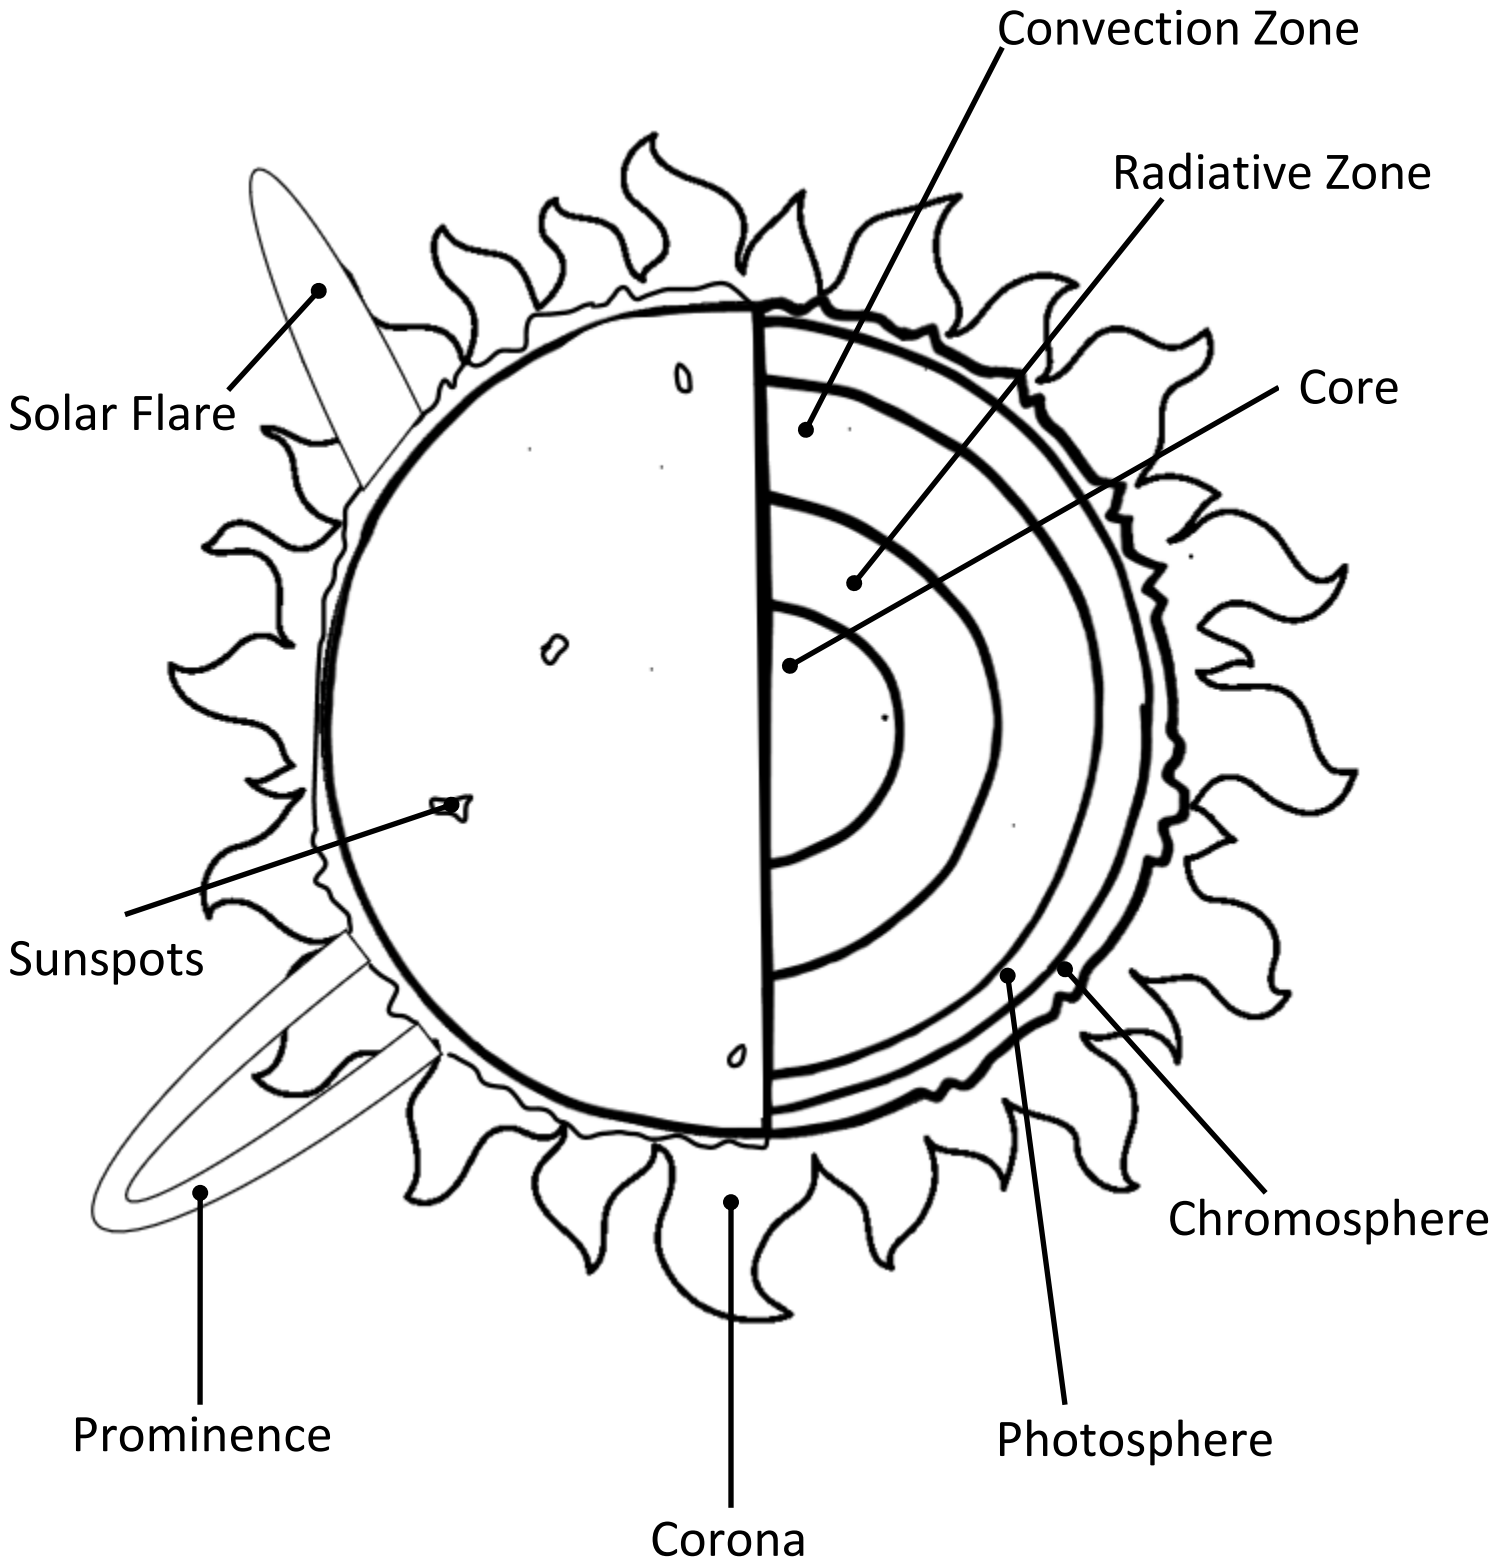

♥ Marie

Parts of the Sun Table & Diagrams

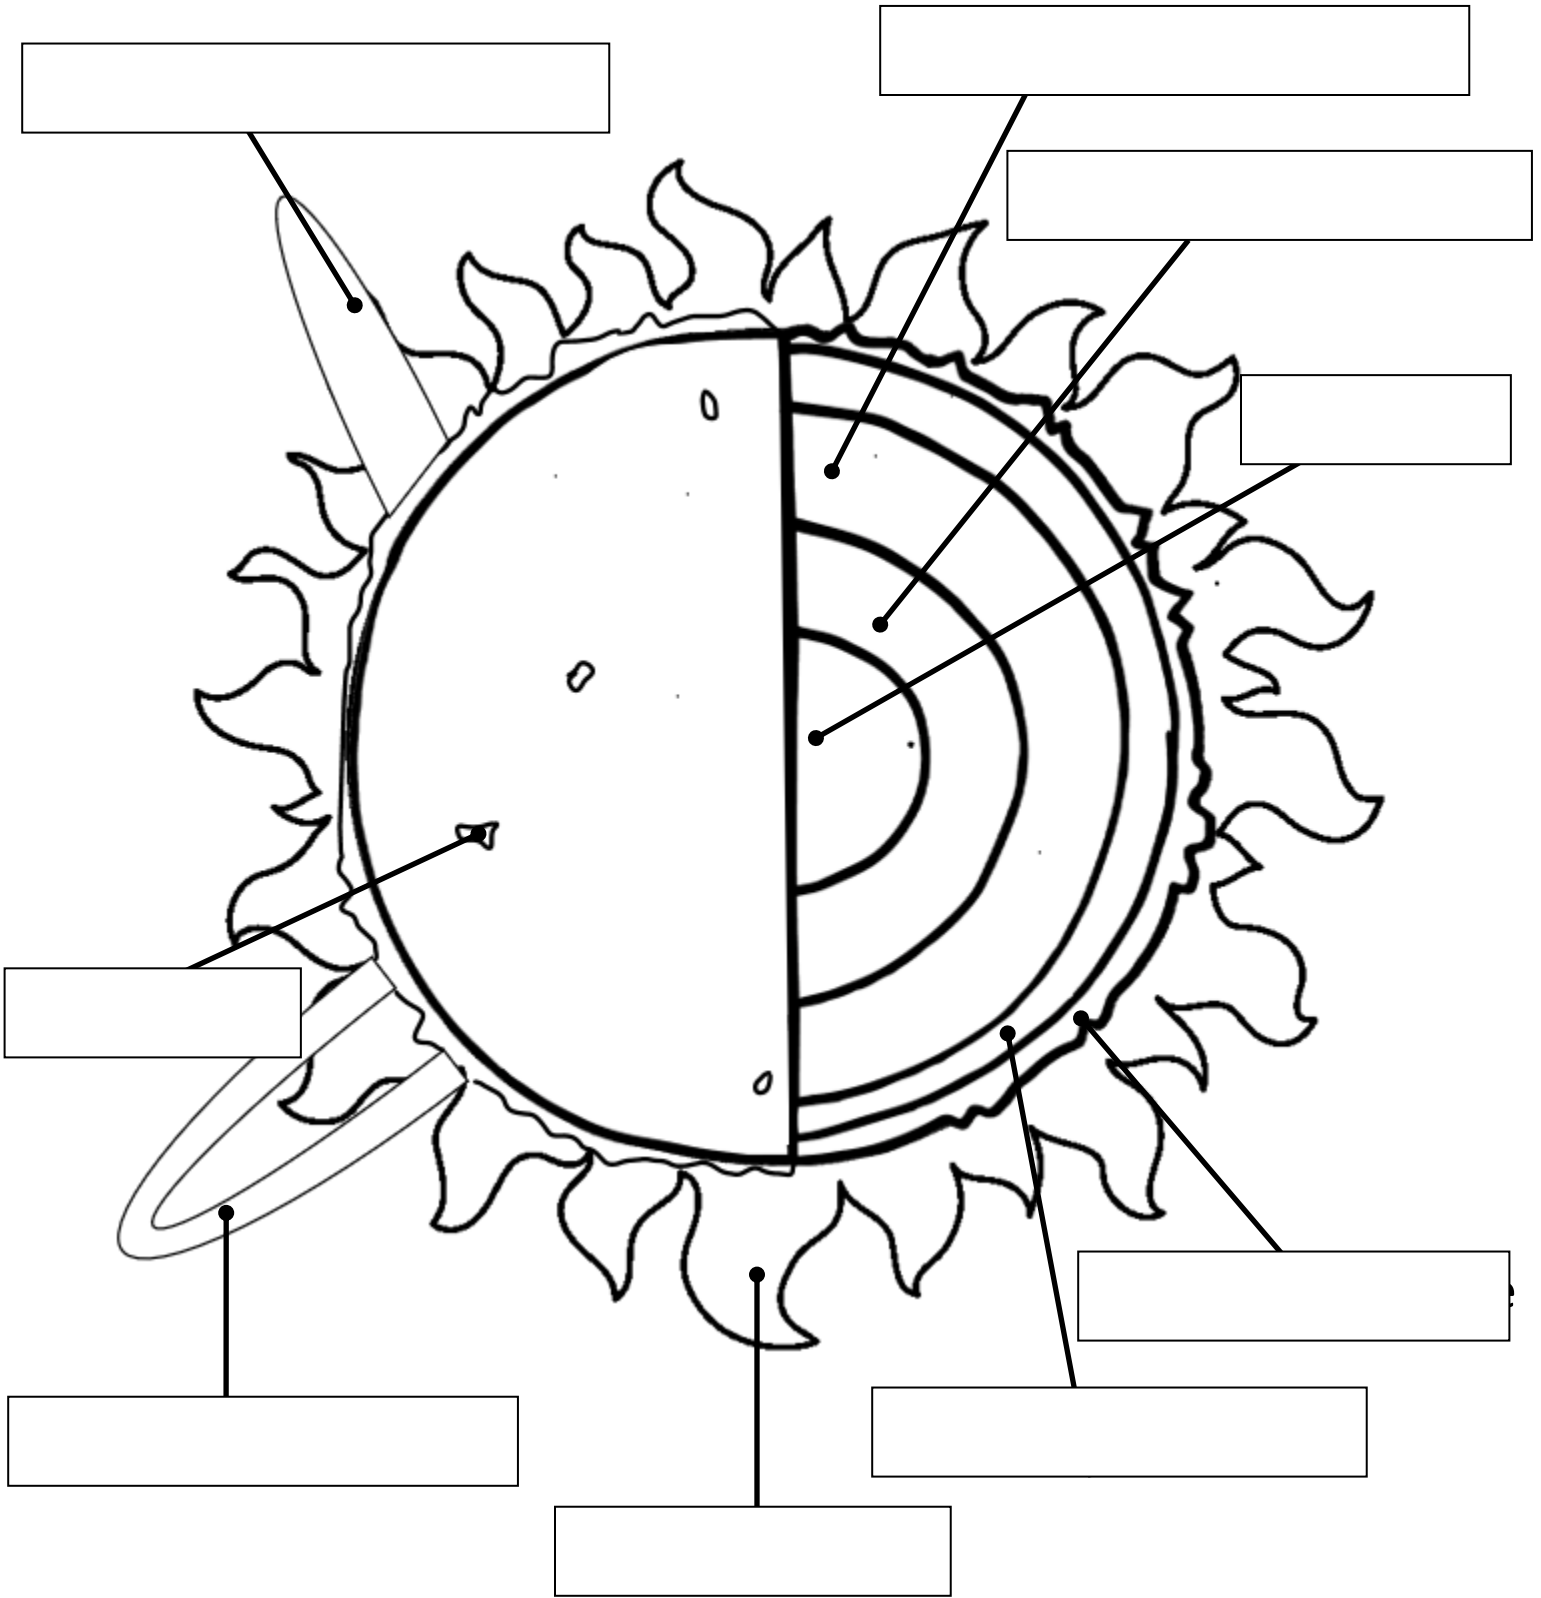

There are 3 separate activity sheets in this set. The first is a table that gives a student ample room to describe each part of the sun. The next two sheets are similar diagrams of the sun. One labels the parts of the sun for the student, while the other is a fill-in-the-blank activity sheet. Choose the one that best fits your needs. I encourage you to use the Parts of the Sun slideshow to accompany your learning! 😊

Parts of the Sun	Description or Definition
Core	
Radiative Zone	
Convection Zone	
Photosphere	
Chromosphere	
Corona	
Sunspot	
Prominence	
Solar Flare
