

Hi! Thank you for visiting [thehomeschooldaily.com](http://thehomeschooldaily.com) ! So glad you were able to find a school tool you can use. Please feel free to use this activity for your own personal use or if you are the main teacher in a coop setting. I provide this free resource to encourage others to homeschool their own.

If you would like to share the file with others, I ask that you share by sending them a link to my website or to the page that hosts the file. Please do not send them a link directly to just the PDF file (the file you are at now).

You may not sell, copy, or alter my files as your own. You may not host my files on your own website without linking them to [thehomeschooldaily.com](http://thehomeschooldaily.com) or giving proper attribution to [thehomeschooldaily.com](http://thehomeschooldaily.com) .

May you be blessed on your homeschooling journey.

♥ Marie

## 2 General Experiment/Lab Sheets

These lab sheets are simple recording sheets that will work with just about any scientific experiment. Students are asked to fill in basic information about their experiment: posing question, hypothesis, procedure, observations, and conclusion. Each of the lab sheets require students to answer similar questions. However, the sheets do vary, and one may be more appropriate for your student than another. Happy learning!
