FOR THE TEACHER...

The World Map Cut & Paste Activity Sheet is an effective tool to use with elementary students of various ages. Students can refer to an atlas or the World Map Reference Sheet that can be downloaded at [The Homeschool Daily](http://TheHomeschoolDaily.com).

First, students will cut out the continents and oceans from the second sheet. After cutting out the labels, students will identify their location and then paste them on their World Map.

The World

Cut and paste the continent and ocean labels to paste on the World Map.
