FOR THE TEACHER...

After working with your student on basic geography skills including being able to locate the continents and 5 oceans, use this activity sheet to gauge their understanding of directions (North, South, East, West). I still remember the mnemonic device we used in grade school to remember the directions- **N**ever **E**at **S**hredded **W**heat.

The World Map Questions focus on being able to use a compass. Students are asked to place a S for South, N for North, E for East, and W for West on the world map. Then students are asked questions that will test their ability to use a compass. Using this activity sheet, you will quickly be able to gauge your student's directional awareness on a map.

*Blessings,
Marie*

World Map

Use the compass to the right to help you label 1-4 as either S for South, W for West, E for East, or N for North.
