Read the article from Answers in Genesis titled, Lesson 15: How Old is the Earth?

This article will help you understand how you can use the Bible to explain that the Earth is not billions of years old, but thousands. If you look at the genealogy of Adam listed in Genesis 5 and then the genealogy of Noah's son, Shem, in Genesis 11, along with other events that followed, you could calculate a timeline from creation to now that would span thousands of years, not millions or billions of years. At your age, this may be a little tricky for you to calculate completely.

1.) What record can we use to help us determine the age of the Earth? \_\_\_\_\_

2.) Who was around at the beginning of time? \_\_\_\_\_

3.) How can we use the Bible to explain that the Earth is not billions of years old, but thousands?
