

Chickens are omnivores. That means they eat plants and meat. They like eating seeds, grass, and grain, but also catch and eat insects and lizards.

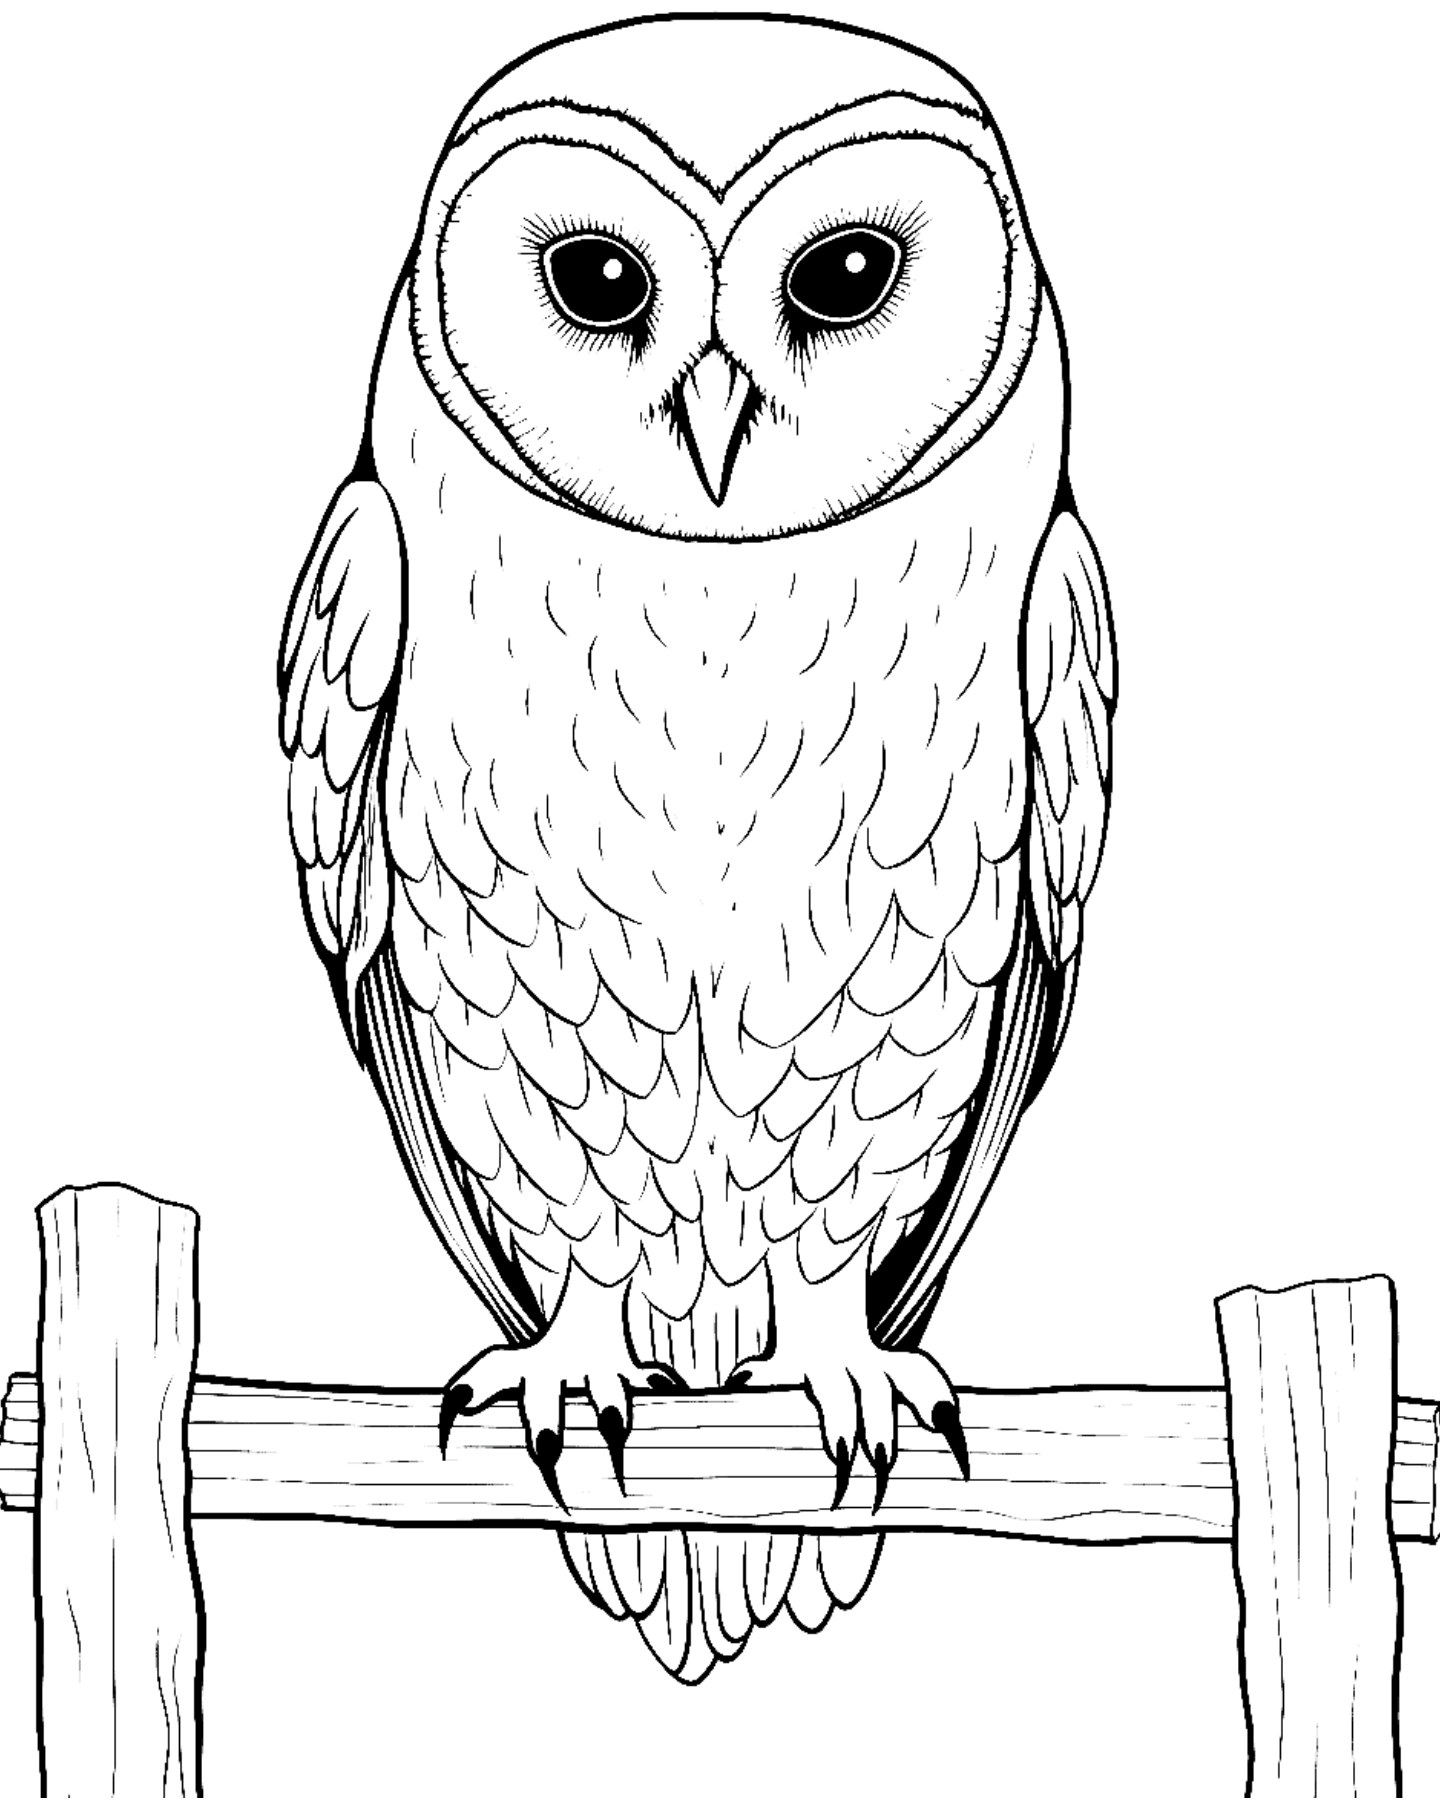

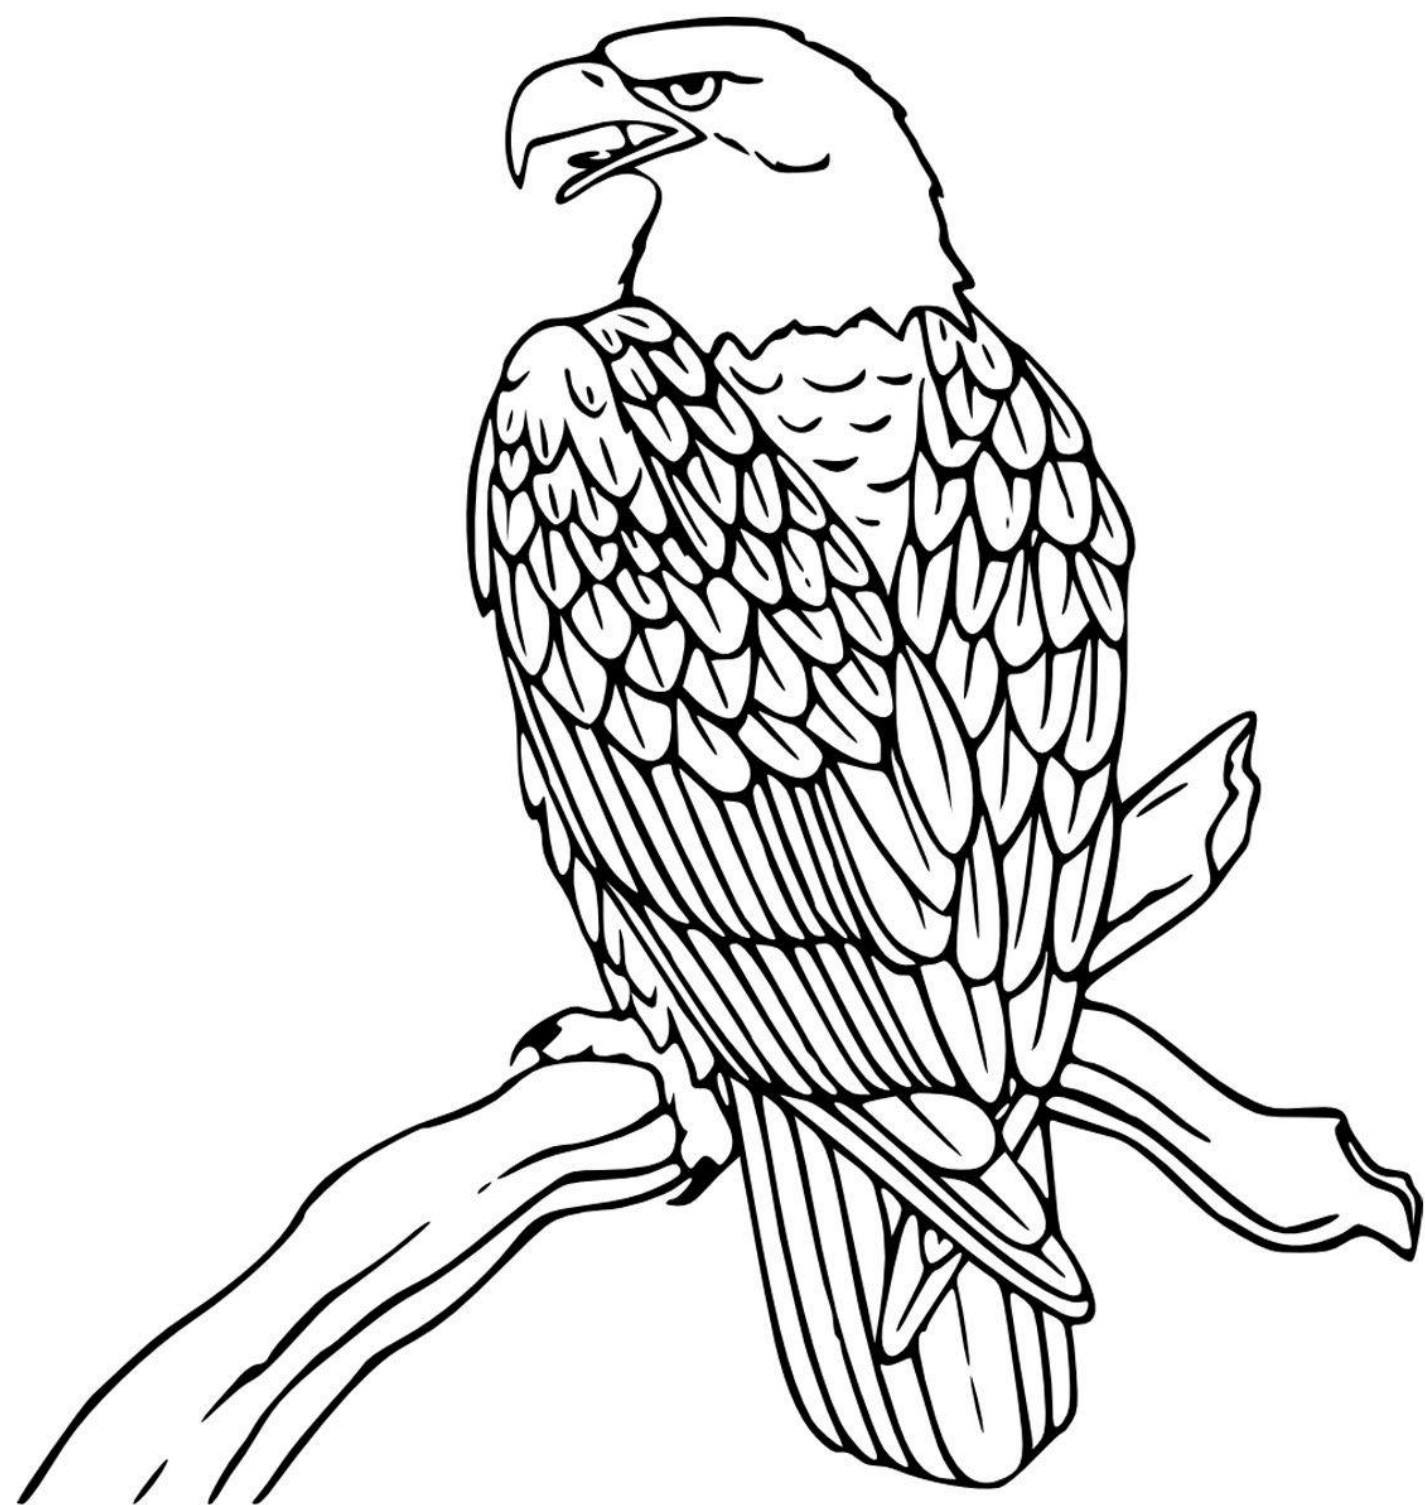

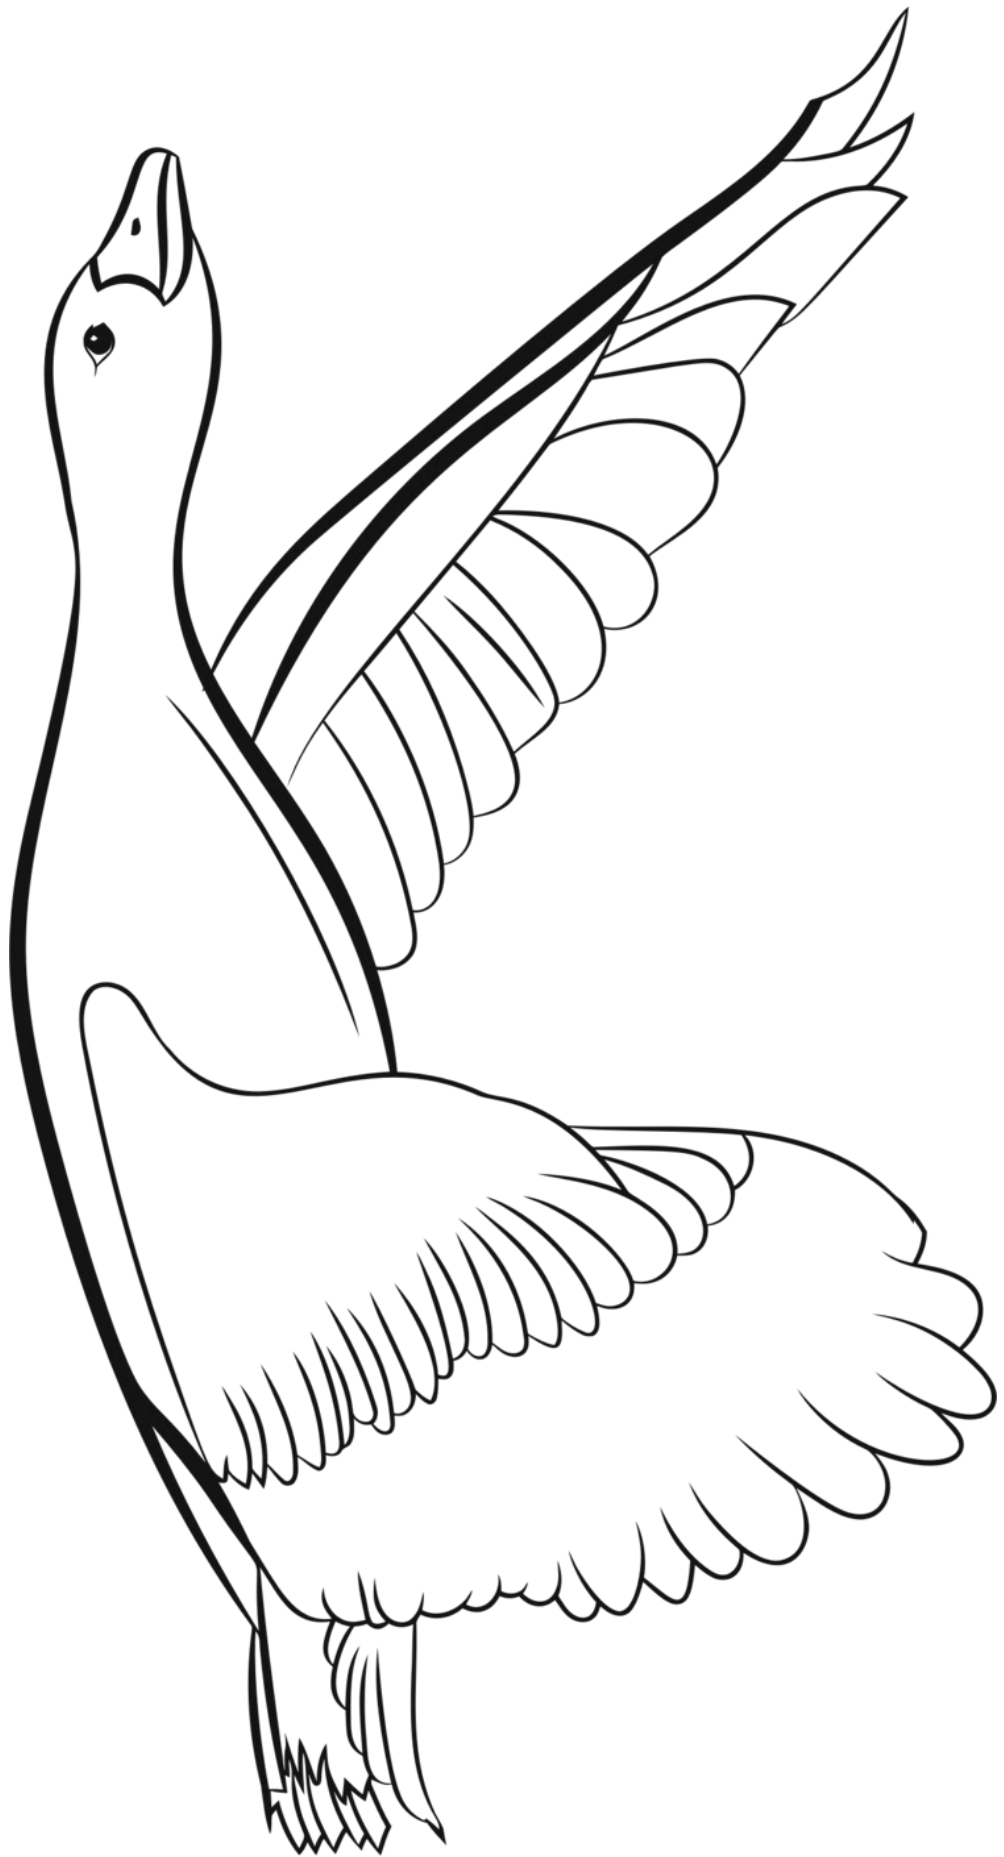

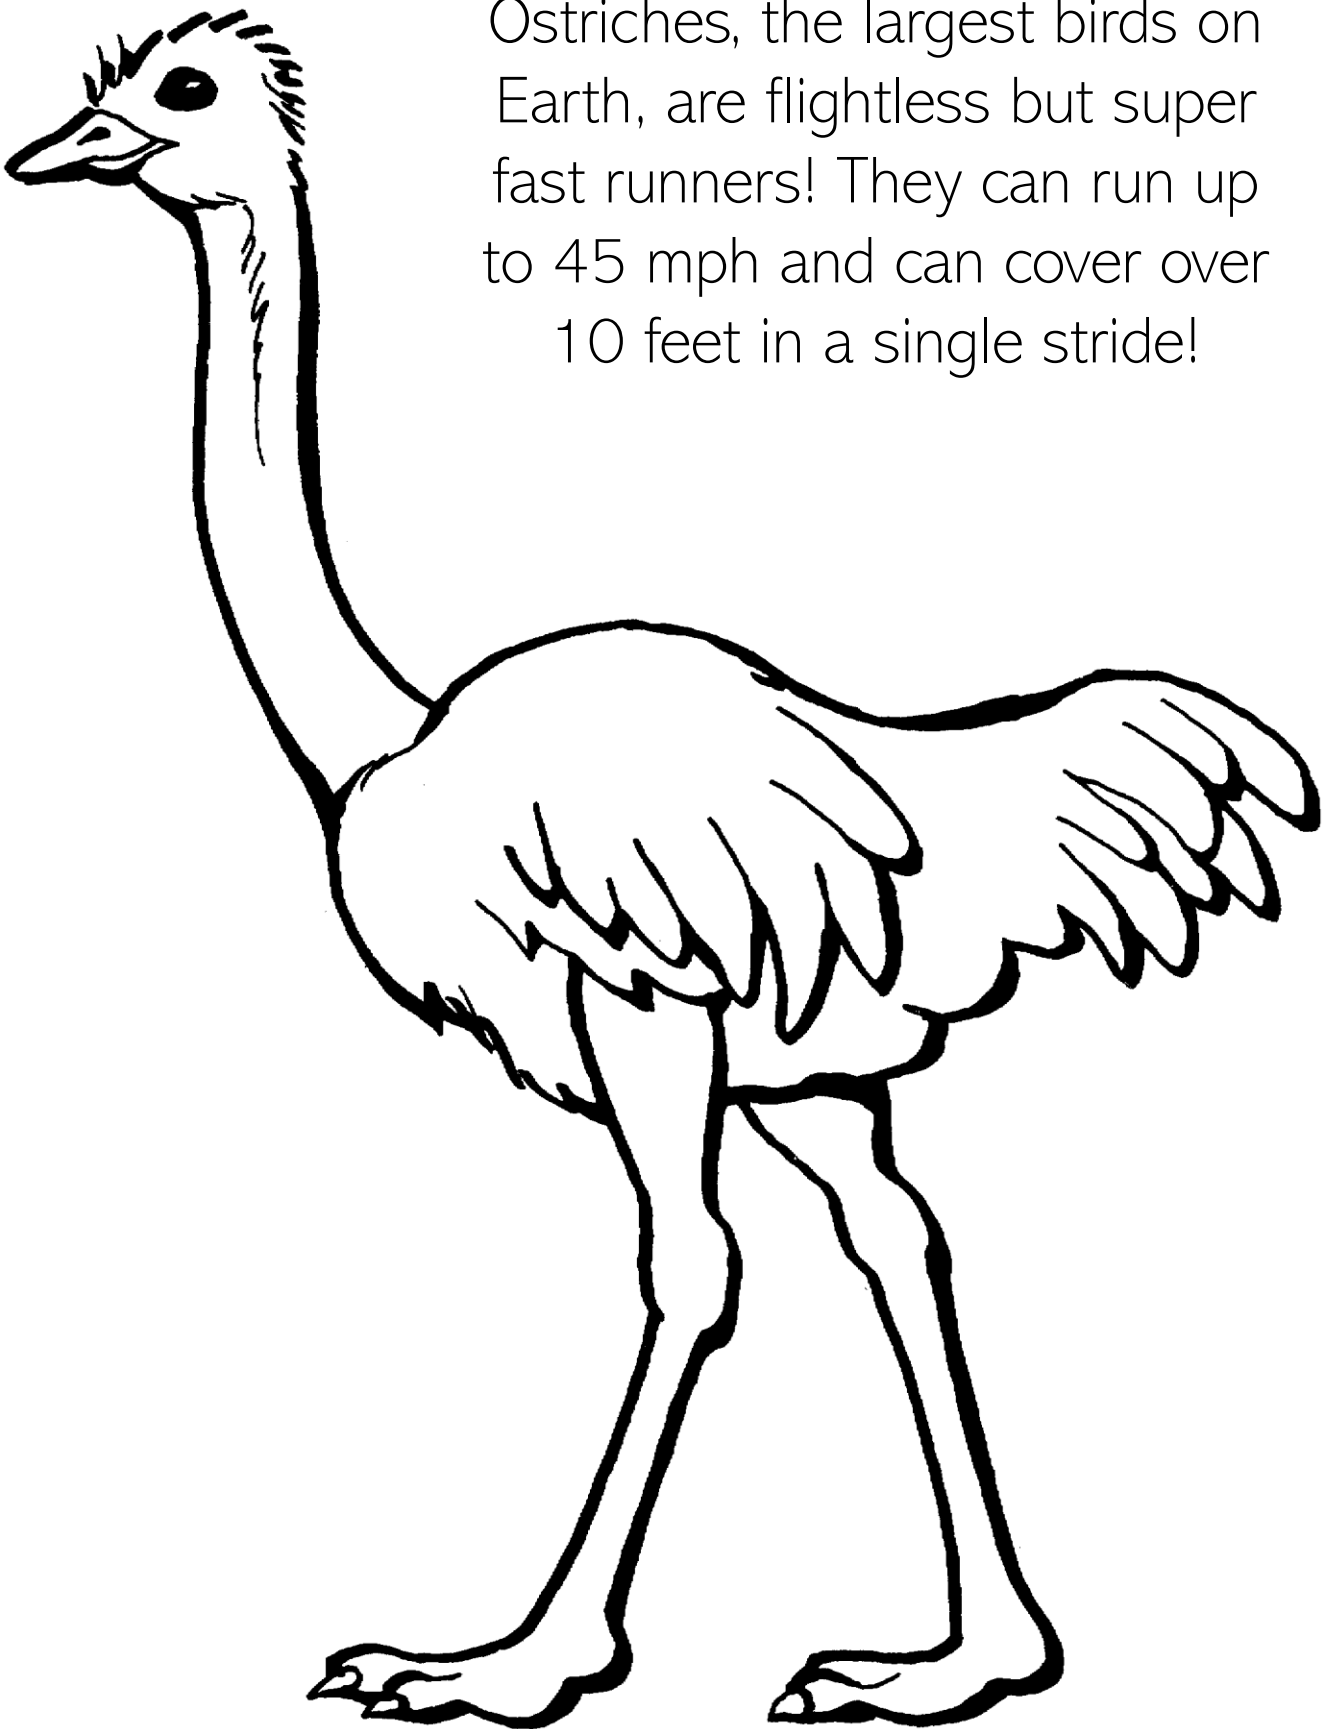

Parrots can be a  
wide range of colors.  
They can be green,  
red, blue, yellow,  
orange, and even  
grey.

Ostriches, the largest birds on Earth, are flightless but super fast runners! They can run up to 45 mph and can cover over 10 feet in a single stride!

Egrets are large, white birds with long legs, slender bodies, and dagger-shaped bills.
