Instructions: Cut out the two strips on the left. These will connect the Earth to the Sun and the Earth to the Moon. Glue one end of a strip to the Moon and one end of the other strip to the Sun. Then place the other ends of both strips under the Earth and attach them with a pin through the center of the Earth so the pieces can move. Place the strip attached to the Sun underneath the strip attached to the Moon. Refer to the image for guidance.
